[www.civilmateng.com](http://www.civilmateng.com)

**CIVIL MATENG, S. L.**  
Empresa Consultora

---

## INTRODUCTION

**Civil Mateng, SL** was established in January 1989 as a technical consulting company. We develop tasks of study, design, project management, technical assistance in execution of works and processes in the fields of civil and industrial engineering, urban planning, architecture design, water and wastewater treatment, transport and logistics as well as in environment and sustainable development.

The works referred to necessitate a combination of policy efforts and knowledge in different fields through multidisciplinary teams well trained and control lines of quality management, environmental and occupational risk prevention, well studied and defined.

The technical means used derive high computing and communications facilities that promote rigor required and are conducted by personnel of different qualifications and skills.

The company is certified ISO 9001 (Quality Management) from August 2003 and ISO 14001 (Environmental Management) since June 2006, currently in force.

---
